Hi Mary – I've already told Tom that NCEA briefed Matt Fritz and that Mike reached out to the Ag advisor. He will convey

If Gina's request is based on the weekly report, maybe she doesn't know that we did outreach to the Ag advisor.
Forward that email message?

Expanding the group so we can get the needed info to Tom this morning. Can someone please send either a plain language factsheet or a desk statement about the ammonia assessment? Need the information by 10:00 a.m. so Tom can review in advance of his meeting with the Administrator. See below for the full email chain for the specific questions the Administrator has asked (history of the assessment and implications for decision-making).

Here's the info Tom included in his weekly report to the Administrator:

See below. Sorry for the Sunday night request but could you get me some background and implication bullets for my meeting with Gina at 11:30. I assume you have these from the update meetings with Matt Fritz.

Tom can we talk about the final IRIS Risk assessment for ammonia when we meet tomorrow? I haven't heard anything about it and I am not familiar with the history, results of any immediate implications of the assessment.
